

## HAIR CARE FOR DOGS AND CATS

### SPECIALIST

**INDICATION** : Care for skin prone to inflammatory conditions of bacterial or fungal origin.

**COMPOSITION** : Chlorhexidine 3%, Ketoconazole 1%

**Action** : **Chlorhexidine** - balances the skin microbiome, ensuring healthy and functioning.

**Ketoconazole** - a substance that maintains the balance of the skin microbiome in dogs.

The shampoo does not contain any **artificial dyes**, or **SLES** and **SLS**.

### BEAUTY & CARE

**INDICATION** : Care for animals with sensitive skin, prone to irritation, dryness, or intolerance to other shampoos. Can be used on growing animals.

**COMPOSITION** : Panthenol, Allantoin, Glycerin

**Action** : **Panthenol** - accelerates skin regeneration.

**Glycerin** - has strong moisturizing and smoothing properties; supports the skin regeneration process.

**Allantoin** - acts keratolytically and regeneratively, aiding the skin's self-cleansing process by exfoliating dead skin cells. The product does not contain **SLES** and **SLS**.

### PUPPY

**INDICATION** : Care for the skin and coat of puppies and kittens.

**COMPOSITION** : Aloe extract, Laniline, Alantoin, Panthenol, Oat proteins

**Action** :

**Oat Extract and Hydrolyzed Keratin** - help enhance skin elasticity and prevent the risk of excessive dryness.

**Allantoin and Aloe Vera Extract** - have soothing and regenerative properties.

**Panthenol** - moisturizes and soothes irritated and red skin.

**Lanolin** - an emollient that effectively lubricates and protects the skin external factors.

The product does not contain **SLES** and **SLS**.

### TWISTED HAIR

**INDICATION** : Dermocosmetic shampoo for easy detangling, designed for long-haired dogs and cats.

**COMPOSITION** : Panthenol, Allantoin, Sweet Almond Oil, Silk Hydrolysate, Oat Protein Extract, Lanolin

**Action** :

**Sweet Almond Oil** - nourishes and makes detangling easier.

**Allantoin and panthenol** - soothe and support skin regeneration.

**Silk proteins** - strengthen the hair and restore its shine.

**Oat extract** - has conditioning properties.

**Glycerin and lanolin**

- provide proper hydration.

The shampoo does not contain any **artificial dyes**, or **SLES** and **SLS**.

## HAIR CARE FOR DOGS AND CATS

### ANTI-SEBORRHOEIC

**INDICATION** : Skin and coat care for dogs and cats prone to seborrhea. Can be used for growing animals.

**COMPOSITION** : Piroctone olamine 0.5%, salicylic acid 0.9%, zinc gluconate 0.5%, pyridoxine hydrochloride (vitamin B6) panthenol, allantoin.

**Action :**

**Piroctone Olamine (octopirox)**

- exhibits antifungal, antiseborrheic, and soothing effects, and creates an environment that limits fungal growth. It regulates the keratinization process of the epidermis and improves hair condition.

**Salicylic acid**

- has keratolytic properties and regulates the activity of sebaceous glands, removing dead skin cells and stimulating the skin renew more rapidly; by affecting the skin's pH, it supports its microbiome.

**Pyridoxine**

- improves skin and coat condition and has anti-static properties.

**Allantoin and Panthenol**

- soothe, moisturize, and support health.

The formula of the shampoo does not contain **SLES** and **SLS**.

### HYPO ALLERGENIC

**INDICATION** : Care for sensitive skin prone to irritation, allergies, and dryness. Can be used on growing animals.

**COMPOSITION** : Oat Extract, Aloe Eextract, Hydrolyzed Keratin, Lanolin, Allantoin, Panthenol.

**Action :**

**Oat extract** - oat proteins are very easily absorbed by the hair and skin, making it more elastic and the hair shiny.

**Panthenol** - has moisturizing and protective effects on the skin.

**Allantoin** - additionally soothes, moisturizes, and supports skin health.

**Aloevera Extract** - has moisturizing and soothing effects, reducing redness and soothing skin irritations.

**Hydrolyzed Keratin** - has moisturizing, softening, and smoothing effects on the skin and hair.

**Lanolin** - moisturizes and supports the rebuilding of the lipid barrier.

The product does not contain **SLES** and **SLS**.

### BENZOIC

**INDICATION** : Care for the skin and coat of dogs and cats prone to oiliness.

**COMPOSITION** : Benzoyl Peroxide 1.1%, Glycerin, Panthenol

**Action :**

**Benzoyl Peroxide** - present in the shampoo, regulates sebum production and stabilizes the skin's microbiome.

**Glycerin** - has a moisturizing effect, helping to slow down skin dryness.

**Panthenol** - provides moisturizing effects and supports the skin's protective barrier.

The product does not contain **SLES** and **SLS**.

## HAIR CARE FOR DOGS AND CATS

### STIMUDERM ULTRA SHORT HAIR

**INDICATION** : Dogs with excessive hair loss of various types and/or with weakened hair.

**COMPOSITION** : Active NTM, Panthenol, Allantoin, Equisetum Arvense Extract.

**Action :**

**ACTIVE NTM** – a patented molecule that induces and extends the anagen phase, improves skin microcirculation and strengthens the hair follicle, thus stimulating hair growth.

**Panthenol** – a humectant, shows a soothing and irritation relieving effect, promotes skin regeneration and accelerates healing.

**Allantoin** – has a keratolytic effect by affecting desmosomes, which are responsible for the intercellular connections of corneocytes. It also has skin moisturizing and irritation soothing properties.

**Horsetail extract** – rich in minerals necessary for proper skin function (K, Mg, Fe), vitamin C, flavonoids and silica. A natural antioxidant, also known for its conditioning and strengthening properties of the skin and hair.

### STIMUDERM ULTRA LONG HAIR

**INDICATION** : Dogs with excessive hair loss of various types and/or with weakened hair.

**COMPOSITION** : Active NTM, Panthenol, Allantoin, Equisetum Arvense Extract, Hydrolyzed Silk Proteins.

Ingredients composition adjusted to long - hair needs.

**ACTIVE NTM** – a patented molecule that induces and extends the anagen phase, improves skin microcirculation and strengthens the hair follicle, thus stimulating hair growth.

**Panthenol** – a humectant, shows a soothing and irritation relieving effect, promotes skin regeneration and accelerates healing.

**Allantoin** – has a keratolytic effect by affecting desmosomes, which are responsible for the intercellular connections of corneocytes. It also has skin moisturizing and irritation soothing properties.

**Horsetail extract** – rich in minerals necessary for proper skin function (K, Mg, Fe), vitamin C, and silica. A natural antioxidant, known for its conditioning and strengthening properties of the skin and hair.

**Hydrolyzed silk proteins** – create a protective film on the surface of the skin and hair, which has a smoothing effect, making combing easier.

## E.N.T. CARE FOR DOGS AND CATS

### OTICURANT

Patented product intended for ear care and hygiene for dogs. Solution to Otitis external.

#### COMPOSITION :

6-deoxy-L-galactose,  
 Oligosaccharide,  
 Lactic acid, Excipients.  
 Patented formula.

#### Action :

The preparation binds moisture and helps remove accumulated wax while reducing unpleasant odor. In case of discomfort (e.g., itching), it provides relief.

#### 6-deoxy-L-galactose, Oligosaccharide

- supports regeneration, stabilizes the environment inside the ear.

**Lactic acid** - supports the production of ceramides (increasing resistance to damage and external factors), has moisturizing properties, and supports the skin's lipid barrier; it ensures proper skin pH, thereby contributing to maintaining the balance.

**The absorbent properties of the preparation ensure its nurturing function in Oticurant®.**

### EYE CLEANSER

Specialized eye care solution for dogs and cats (including animals with excessive tearing).

**COMPOSITION :** Hyaluronic acid, Lactic acid, Bearberry extract (source of arbutin), Boric acid, Panthenol

#### Action :

**Hyaluronic acid** - retains water in the deeper layers of the skin and creates a protective layer on the skin.

**Lactic acid** - supports the production of ceramides (increasing resistance to damage and external factors), has moisturizing properties and supports the skin's lipid barrier; ensures proper skin pH, thus contributing to maintaining the proper balance of microorganisms.

**Bearberry extract** - rich in arbutin, has natural brightening properties around the eyes.

**Fructan** - has moisturizing properties and supports maintaining the balance of the skin microbiome around the eyes.

**Panthenol** - has moisturizing and soothing properties.

**The product does not contain any dyes, and its color is solely due to the presence of natural ingredients.**

# WOUND CARE FOR DOGS AND CATS

## HOT SPOT SPRAY

**INDICATION :** For topical use in the care of sensitive, reddened, and dry skin. Additionally, it can be used for the care of allergic skin.

**COMPOSITION :** Nanosilver, Aloe extract, Camomile extract, Panthenol, Tea tree oil, Salix alba bark extract

**Action :**

**Nanosilver** – supports skin renewal processes.

**Tea tree oil** – soothes redness, optimizes skin microbiome, and moisturizes.

**Aloe extract** – moisturizes and conditions.

**Panthenol** – a humectant that has soothing and calming properties, supports skin regeneration.

**Chamomile extract** – has soothing and calming effects, improves comfort for irritated skin.

**Salix alba bark extract** – supports natural skin regeneration processes.

## MOISTURIZING SPRAY

**INDICATION :** Topical preparation for skin care with moisturizing and regenerative properties. An ideal solution to support the treatment of skin changes, scars, abrasions, and hard-to-heal wounds, as well as to aid in the care of dry and atopic skin.

**COMPOSITION :** Nanosilver, Prebiotics, Lactic acid, Urea, Sodium hyaluronate, Panthenol, Betaine, Glycerin, and Oat protein hydrolysate.

**Action :**

**Nanosilver** – has a nurturing and toning effect, supports regeneration, moisturizes.

**Prebiotics** – ensure a healthy skin microbiome.

**Lactic acid** – supports the production of skin ceramides, making the skin more resistant to damage and external factors, strengthens the hydro-lipid barrier, and moisturizes.

**Urea** – protects the skin from loss, provides elasticity, soothes tension, and improves the permeability of the stratum corneum.

**Betaine & Panthenol** – soothe irritation and moisturize.
