RenewEye

Cornea Superior Lubricating Gel

ACTIVE INGREDIENTS : Hyaluronic Acid, Bio-mucin, PHMB

CHARACTERISTICS :

National Patient Ingredients - Bio-mucin

Bio-mucin could moisturize the cornea and increase the water holding capacity of eyeball. Bio-mucin also improves the regeneration of damaged epithelial cells.

Unique Moisturizing Formula - Hyaluronic Acid :

Hyaluronic Acid is a natural water holding ingredient which has good moisturizing effect. It is good for moisturizing cornea, protecting cornea, as well as isolating wound.

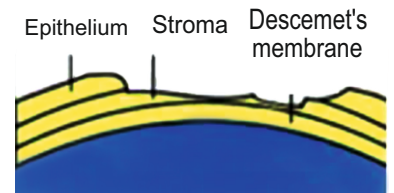

Double ingredients show a perfect match :

Bio-mucin could stable the treat film, moisturizing the eye, and repair the cornea. Hyaluronic acid is a hydrophilic molecular which could increase the moisturizing ability and stable the attachment of Bio-mucin.

Excluding Traditional Anti-Septics :

RenewEye excludes traditional antiseptics (such as quaternary ammonium, BKC). The use of high safety anti microbials, PHMB, never hurt the cornea during a long-term use.

Indications : Corneal Ulcer, Xerophthalmia (Dry Eye), Conjunctivitis.

Bio-Mucin provides antioxidant antimicrobial activities and moist maintenance. Hyaluronic acid helps in adhesion and stability of the tear film.

RefreshEye

Lubricating Antioxidant Eye Drops

INGREDIENTS :-

N-acetyl-L-carnosine (N-acetylcarnosine, NAC) 20mg, Taurine, Vitamin E, Hyaluronic Acid, PHMB

PROPERTIES :-

- 2% N-acetyl-L-carnosine has a high antioxidant capacity, which can remove free radicals, decrease oxidative damage in the lens and ameliorate cataract formation, and make the eyes bright and delay aging.
- Taurine is an important nutrient for eye and retinal health. It has antioxidants and cytoprotective properties that help restore eye health and maintain eyesight.
- Vitamin E is a fat-soluble antioxidants that protect fatty acids from harmful oxidation. It can provide antioxidant protection, improve blood flow to eyes and nourish eyes.
- Hyaluronic Acid (HA) is an excellent moisturiser and maintains the stability of the tear film, helping increase eye moisture and relieve discomfort.
- Corneal Penetration formula carrying active ingredients to penetrate the cornea deep into the eye, giving more effective protection.

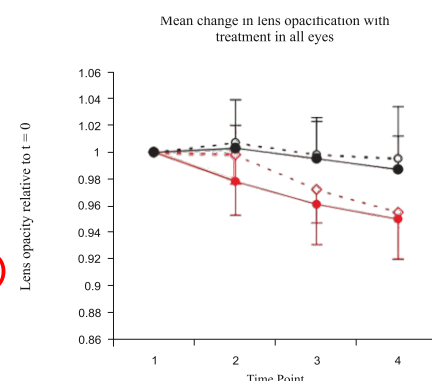

INDICATIONS :-

Cataract, Nuclear Sclerosis, Aging eyes

APPLICATION :-

Apply 1 to 2 drops in both eyes 2 to 3 times daily or as directed by the veterinarian.

- (miscellaneous)
- (mature cataract)
- ◆ (nuclear sclerosis)
- (immature cataract)

E.N.T. CARE FOR DOGS AND CATS

STOMA FERIN ULTRA

Specialized dental preparation intended for adult dogs and cats. For local application to the mucous membrane of the oral cavity.

Chlorhexidine, Lactoferrin

Chlorhexidine - helps to reduce the buildup of bacterial plaque in the mouth; extended action for up to 8-12 hours after application. Reduced adherence to tooth surfaces and a 60% reduction in plaque buildup.
Lactoferrin - reduces plaque buildup and also exhibits antioxidant properties.
The **gel formula** and the **special thin applicator** tip facilitate precise application.

OTICURANT

Patented product intended for ear care and hygiene for dogs.

6-deoxy-L-galactose, oligosaccharide, lactic acid, excipients. Patented formula.

The preparation **binds moisture and helps remove accumulated wax** while reducing unpleasant odor. In case of discomfort (e.g., itching), it provides relief.
6-deoxy-L-galactose, oligosaccharide - supports regeneration, stabilizes the environment inside the ear.
Lactic acid - supports the production of ceramides (increasing resistance to damage and external factors), has moisturizing properties, and supports the skin's lipid barrier; it ensures proper skin pH, thereby contributing to maintaining the microbial balance.
The absorbent properties of the preparation ensure its nurturing function in Oticurant®.

EYE CLEANSER

Specialized eye care solution for dogs and cats (including animals with excessive tearing).

Hyaluronic Acid, Lactic Acid, Bearberry Extract (source of arbutin), Boric Acid, Panthenol

Hyaluronic acid retains water in the deeper layers of the skin and creates a protective layer on the skin.
Lactic acid - supports the production of ceramides (increasing resistance to damage and external factors), has moisturizing properties and supports the skin's lipid barrier; ensures proper skin pH, thus contributing to maintaining the proper balance of microorganisms.
Bearberry extract - rich in arbutin, has natural brightening properties around the eyes.
Fructan - has moisturizing properties and supports maintaining the balance of the skin microbiome around the eyes.
Panthenol - has moisturizing and soothing properties. The product does not contain any dyes, and its color is solely due to the presence of natural ingredients.

WOUND CARE FOR DOGS AND CATS

HOT SPOT SPRAY

For topical use in the care of sensitive, reddened, and dry skin. Additionally, it can be used for the care of allergic skin.

Nanosilver, aloe extract, camomile extract, panthenol, tea tree oil, salix alba bark extract.

Nanosilver - supports skin renewal processes.
Tea tree oil - soothes redness, optimizes skin microbiome, and moisturizes.
Aloe extract - moisturizes and conditions.
Panthenol - a humectant that has soothing and calming properties, supports skin regeneration.
Chamomile extract - has soothing and calming effects, improves comfort for irritated skin.
Salix alba bark extract - supports natural skin regeneration processes.

MOISTURIZING SPRAY

Topical preparation for skin care with moisturizing and regenerative properties. An ideal solution to support the treatment of skin changes, scars, abrasions, and hard-to-heal wounds, as well as to aid in the care of dry and atopic skin.

Nanosilver, prebiotics, lactic acid, urea, sodium hyaluronate, panthenol, betaine, glycerin, and oat protein hydrolysate.

Nanosilver - has a nurturing and toning effect, supports regeneration, moisturizes.
Prebiotics - ensure a healthy skin microbiome.
Lactic acid - supports the production of skin ceramides, making the skin more resistant to damage and external factors, strengthens the barrier, and moisturizes.
Urea - protects the skin from water loss, provides elasticity, soothes skin tension, and improves the permeability of the stratum corneum.
Betaine and panthenol - soothe irritation and moisturize.
